

CollabQuote Software License

Effective date: September 16, 2026

This Software License governs use of **CollabQuote - UGC Brand Deal Pricing & Rights Toolkit** ("CollabQuote" or the "Software").

For this License, "**Seller**" means the creator or supplier identified on the CollabQuote Gumroad product page and the purchaser's Gumroad receipt. "**You**" means the purchaser or authorized individual user.

By downloading, installing, activating, or using CollabQuote, you accept this License.

1. License grant

Subject to payment of the applicable purchase price and compliance with this License, the Seller grants you a **perpetual, non-exclusive, non-transferable, limited license** to install and use the purchased CollabQuote version for your own personal or business creator activities.

"Perpetual" means that the license to the purchased Software version does not expire merely because time passes. It does not mean that the Seller guarantees perpetual hosting, downloads, support, compatibility, third-party services, or future updates.

2. Authorized user and device limit

Unless different terms are expressly stated at purchase:

- one standard CollabQuote license is for one individual user;
- that user may maintain up to two active computer installations at the same time;
- the user may move the license between computers by deactivating an old installation where the Product provides that function.

A business may purchase a license for an individual worker, but the standard individual license does not become a shared concurrent team license.

Each additional individual user requires a separate license unless the Seller expressly provides a multi-user license in writing.

3. Activation

A CollabQuote release may require the Gumroad license key associated with the purchase to be activated through the Seller's activation service.

Activation may require an internet connection.

After successful activation, CollabQuote is designed to permit ordinary offline use without requiring a continuous internet connection.

The activation system may enforce the permitted device count and may reject, suspend, or revoke a license that is invalid, refunded, charged back, fraudulently obtained, publicly shared, materially abused, or used in material breach of this License.

A temporary inability to contact the activation service is not intended to invalidate an already activated legitimate installation.

4. Permitted copies and backups

You may:

- install the Software on devices allowed by the device limit;
- keep a reasonable backup copy of the installer for your own licensed use;
- keep backups of your own CollabQuote business data;
- print or export your own records using Product features.

Backup copies remain subject to this License and may not be redistributed.

5. Restrictions

Except where applicable law expressly provides a non-waivable right, you may not:

- share or publish your license key, activation token, or other license credential;
- sell, sublicense, rent, lease, lend, transfer, or commercially redistribute the Software or your license;
- provide the Software to another individual for that person's independent use under your individual license;
- operate one individual license as a shared team license;
- intentionally bypass, disable, defeat, forge, or tamper with activation or device-limit controls;
- distribute modified copies as though they were official CollabQuote releases;
- remove or falsify copyright, trademark, licensing, or attribution notices;
- use the Software or Seller branding to misrepresent affiliation with or endorsement by the Seller.

This section does not prohibit reverse engineering, interoperability work, security research, backup activity, or other conduct that applicable law expressly permits despite a contractual restriction.

6. Ownership

The Software is licensed, not sold.

The Seller and its licensors retain all ownership and intellectual-property rights in CollabQuote and its original software, design, documentation, branding, and materials.

No copyright, trademark, patent, trade-secret, or other intellectual-property ownership is transferred to you by the purchase.

7. Your data

This License does not give the Seller ownership of your creator-business records, brand/customer information, invoices, quotes, revenue records, expenses, tax-planning entries, or other user-created business data.

You remain responsible for your information, backups, security, and lawful use.

8. Open-source and third-party components

CollabQuote may include third-party or open-source components.

Those components remain subject to their applicable third-party licenses. Where a third-party license grants rights that cannot lawfully be restricted by this License, the third-party license controls for that component.

9. Updates and upgrades

Updates and upgrades are governed by the CollabQuote Updates Policy.

Installing an update does not increase the number of authorized individual users or device seats unless the Seller expressly changes the license terms for that purchase.

A normal in-place update is intended to preserve the existing legitimate activation where technically possible.

10. Transfer

The standard individual license is non-transferable.

You may not resell or permanently transfer the license to another person without the Seller's prior written consent, except where applicable law gives you a right that cannot be contractually restricted.

11. Refunds

A full refund terminates this License for the refunded purchase.

After a full refund, you must stop using the refunded Software and must not continue to use, activate, copy, or distribute it except to the extent necessary to retrieve or export your own data where technically available.

The Seller may revoke activation associated with a refunded or successfully charged-back purchase.

12. Termination for breach

The License terminates if you materially breach it and fail to cure the breach where cure is reasonably possible, or where the breach is inherently incapable of cure, including intentional unauthorized redistribution or deliberate license-key abuse.

Upon termination, you must stop using and distributing the Software.

Termination does not transfer ownership of your local business records to the Seller.

13. Enforcement and customer data

License enforcement is intended to protect the Software, not to hold creator-business records hostage.

Where technically available, a license-attention or terminated state may preserve read-only access or export capability for customer-owned local data even when creation or editing features are disabled.

This does not require the Seller to maintain indefinite compatibility or data-recovery services.

14. No implied rights

Any right not expressly granted by this License is reserved by the Seller.

15. Relationship to other CollabQuote terms

This License is part of the CollabQuote Terms of Use.

The Privacy Policy explains data handling. The Refund Policy explains voluntary refund rights. The Updates Policy explains updates, upgrades, compatibility, and support expectations.

If a specific written commercial license supplied with a purchase expressly conflicts with this standard License, the specific written license controls for that purchase to the extent of the conflict.

16. Contact

License questions may be sent to the Seller by replying to the Gumroad purchase receipt or using the Seller contact method displayed on the CollabQuote Gumroad product page.
